## Benefits of spray tanning with Solglo

- Safe tanning—no harmful UV rays
- No smell
- Can be used on the face
- Lasts 5-7 days depending on skin type
- Takes 20 minutes to spray
- Incredible colour - develops to a shade to suit your natural colouring

**Cost £25.00 — ask Nikki for details**

## SOLGLO SPRAY TAN

Get a fantastic **safe** spray tan with **Solglo**. This is a revolutionary tanning system which is sprayed on to the skin from a distance using a special spray gun. The bronzer dries instantly and allows you to dress straight away.

You will notice your beautiful golden colour immediately, but it will develop to a deeper shade over the next 6 hours.

### Looking after your tan

You must not shower, bathe or complete any vigorous exercise within the 6 hours development time. After 8-10 hours, the colour will have fully developed so if you can wait until this time has passed before you shower, then your tan will be at its deepest shade. After the development time, you can shower to reveal the most natural looking tan imaginable.

**Sensitive Skins:** If you have sensitive skin or are prone to allergies, it is recommended that you have a sample test to see if the **Solglo** treatment is suitable for you.

**PLEASE GIVE 24 HOURS' NOTICE OF CANCELLATION TO AVOID BEING CHARGED FOR MISSING YOUR APPOINTMENT.**

**FEES VALID UNTIL DEC 2018**
